

# AUTOMOTIVE TECHNOLOGIES

## Mechanical Skills

Students will operate State-of-the-Art Diagnostic Tools while troubleshooting real-world customer owned vehicles in a professional shop environment.

## Employability

Students will prepare for immediate employment, professional certifications and further education in the high-tech automotive industry.

## ASE Certified

Students enroll in an ASE Master Certified Training Program that has proven to meet strict industry standards for tools and equipment, and instructor qualifications

## A successful student in the Auto program...

- Enjoys working with hands-on activities.
- Enjoys solving puzzles.
- Enjoys being physically active.
- Can read and follow technical directions.
- Can work independently.
- Can communicate with clients and customers.

All Career Technical students graduate college and career ready. They have the option to earn industry credentials and/or college credit, as well as, use these towards a pathway to graduation.

## Industry Credentials

Industry credentials validate a student's knowledge and skill in a specified area. It can be used as a pathway to graduation when the WorkKeys assessment is also passed.

- OSHA 10 (1 point)
- ASE Automotive Service Excellence Maintenance & Light Repair (3 points)
- ASE Automotive Brakes (3 points)
- ASE Automotive Electronic/Electrical System (3 points)
- ASE Automotive Suspension and Steering (3 points)
- ASE Automotive Engine Performance (3 points)
- ASE Automotive Engine Repair (3 points)
- Snap-on Battery, Starting & Charging (3 points)
- Snap-on Master Rotor Matching (ProCut) (3 points)
- Snap-on Multimeter (3 points)
- Starrett/Snap-on Precision Measuring Instruments (3 points)

## Career Technical Assurance Guide (CTAG)

Students who successfully complete this program are eligible to have credit transferred to Ohio public colleges and universities.

- CTAUT005 - Introduction to Automotive Services and Repair (2 credit hours)

## College Credit Plus (CCP)

Students are able to gain college credit while in high school through Owens Community College, our college partner, for free.

- AUT 110 - Automotive Service Fundamentals (2 credit hours)
- AUT 133 - Automotive Electrical Systems (3 credit hours)
