Message from the Principal

This week we begin our 5th Grade Ohio State Tests in Science. We are proud of the effort our students gave during their Language Arts tests! As always, we will share with students that our expectation is only that they do their best and that their best is all anyone can ask. There has been a lot of hard work this year mastering grade level expectations and these tests are another way to demonstrate learning. Our Ohio State Tests in Math for both 5th and 6th grade will be next week.

Last week we had a great turn-out for our 5th grade Science Night. We are very excited about 5th Grade Math night this Thursday!

We are blessed to have the opportunity to work with you this year to influence your student. We will work hard to make sure some memorable opportunities are available for your child as we close our sixth year of Eisenhower Intermediate School.

Have a great week!

Sincerely,

Tim Holcombe

Congratulations, Ms. Stevens!

Last Monday, April 15th, our very own Ms. Stevens ran her 4th Boston Marathon! The photo below was taken about a mile and a half from the finish line. Her official time was 3:58.34 which qualifies her to run in the Boston Marathon again in 2020, which will be her 5th!

We are so proud of her effort and thankful for the example she sets to try your best and challenge yourself! Congratulations, Ms. Stevens!!
Science Night Entertains and Informs!

Our second "Eisenhower 5th Grade Science Night" was a huge success! Over 120 students participated in this event which was designed to help students get prepared for upcoming state testing.

Over the course of the evening, students rotated in groups through 6 different science stations and 1 gym activity. Each of the science stations focused on a different state standard. In Miss Ammanniti’s room, the students refreshed their knowledge about ecosystems. Mr. Haar worked with the students on Earth’s rotation and Earth’s revolution while Mrs. Meterko played a trivia game involving the planets and the solar system.

In Mrs. Gau’s room, the students were engaged in a game of Bingo to review key vocabulary terms related to light. Mrs. Gargac had the students experiment with different instruments to better understand sound. Finally, in Mr. Meyer’s room, the students calculated the speed of moving basketballs by applying the formula: speed = distance ÷ time. The activity in the gym was supervised by Miss Shanks and Miss Arthur who kept the students moving through lots of interactive games!

The end of the night brought a pizza party and an atmosphere of great enthusiasm and excitement! The students’ enjoyment of the night was evident through the many smiles and laughs that were shared.

We are thrilled that so many students were able to participate in this event! Thank you to our parents who supported the evening by providing rides for their children! We are very proud of our Eisenhower
5th Grade Math Night This Thursday Night!!

The 5th grade Math teams is excited about "Math Night" on April 25th from 2:40-6:00. The purpose of this night is to have some fun together as we get pumped up for state testing!

We will have lots of great activities and games to review key content areas! These events will be free to the students and will include snacks, prizes, and pizza! Please sign up by Wednesday.

OCS STEM Academy

Attention Parents of 4th - 7th Grade Students:

Does your child like to build, solve problems, and create solutions? Would your child like to be a member of a team that learns about science, technology, engineering and math? If you answered YES, they may be interested in becoming a member of the OCS STEM Academy.

Members of the OCS STEM Academy will work in teams to create robots built from Legos that will be programmed to perform specific tasks to accomplish a goal. No prior programming experience is necessary.

In December, our combined Ike/Fassett teams will compete with other area teams. Last year we were able to send five teams to a regional competition at Toledo Tech Academy, three of which advanced to the district competition in Sylvania. It’s a great experience for our students, and we are very happy to be able to offer this opportunity to your child.
Information is available from your child's teacher (elementaries) or the school office (Ike and Fassett) starting Friday, April 12 or can be found online at http://tinyurl.com/welovebots. Registration are due no later than Friday, May 3.

Parent Pick-up Expectations

Morning drop-off seems to be going very well as our parents are pulling forward to drop off students so other parents can safely drop off their students in the drop off zone. It is difficult and unsafe when everyone feels they must drop off directly in front of the door.

The pace of afternoon pick-up is more congested. Please follow these guidelines to ensure the safety of our students:

- Please drive slowly and stay in a single file line on the pick-up lane.
- Please never try to pick up your student in the second lane, which is for leaving the pick-up area.
- If you do not want to wait in the line, please park in the parking lot and cross the pick-up lane to get your child. No student can cross the pick-up lane unless escorted by an adult.
- Please be sure to pull as far forward as possible to allow as many cars as possible into the pick-up zone.

Thank you very much for following these procedures for the safety of our students!
Mom's Night Out

A fun filled night of shopping & music!
