Over the past few weeks, health classes have been learning about the brain and nervous system. Along with exploring the 3 major parts of the brain and the actions that each part controls, students learned about the dangers of Traumatic Brain Injury and concussions. We stressed the need to care for our nervous systems’ including the importance of wearing protective gear in sports. Later, they examined optical illusions and brain tricks and made pipe cleaner models of specialized nerve cells called neurons. You would be impressed with what they now know!!

Our 7th graders assembled during STRIDE to acknowledge our March Students of the Month. Our March Super Power was Involvement. Students presented a skit depicting the 4 character types in a Superhero movie: The Villain, The Victim, The Onlooker, and The Superhero. We are each character at different times of our lives, but who do we want to be?

Our April Super Power is Perseverance. We watched the movie “Wonder” (part of our opening assembly) to see Auggie persevere to come through to the other side with confidence, compassion and strong character.

Each Student is recognized at an assembly, given a certificate, $2.00 in Snack Shop coupons, and a free kids’ meal at Granite City.
7th Grade News

Honors Mathematics

We have been studying Statistics and Probability.
The Essential Question is “How are statistics used to draw inferences about and compare populations?”

Students are preparing for the Ohio’s State Testing, as we have all year.

Language Arts

Seventh grade language arts classes are diligently preparing for the OST in Language Arts; a practice test was given at the end of March, and various skills and standards are being studied in preparation for these important tests, which are April 17-18. Students have been practicing writing strategies and answering types of questions which will appear on the tests.

Science

Seventh grade science students of Mrs. Pevets and Mrs. Davis continued to learn about ecosystems. They played simulation games, made food webs, and used computer programs to monitor the effects of various populations of animals on ecosystems.

Mrs. Pevets' enriched science classes learned about earthquakes and faults. They mimicked the behavior of normal, reverse and strike-slip faults, learned to triangulate to find the epicenter of an earthquake, and used Phet Interactives Dynamic Earth to learn more about the movement of Earth's plates.

Mrs. Davis' enriched science classes have begun to learn about the interactions of the Earth/Moon/Sun system, beginning with the study of moon phases.
Don’t miss being a part of this year’s “Fassett’s Got Talent” end of year talent show, May 25th!

Fassett Fitness Club 2017-2018

What is Fitness Club, you ask? Fitness Club was established to provide students with an opportunity to better develop healthy eating and exercise habits in a fun and challenging atmosphere.

Health teachers, Mrs. Porter and Mrs. Olive, will supervise students for an hour right after school every Thursday until 3:45pm. Students can choose between exercises in the weight room, running or walking in the hallways, circuit training, relays, games and other co-ed activities. On days where the weather permits, we will be going outside.

Each year we plan to go on a fitness related fieldtrip at a minimal fee to encourage lifelong healthy habits. In the past, we have gone to the YMCA, BGSU Ice Arena, SkyZone, The International Boxing Club, Wildwood Athletic Club and more. This year’s location is yet to be decided.

We also encourage our members to advocate for other organizations that promote fitness. We have joined volunteers for “Girls on the Run” at The University of Toledo, “The Glass City Marathon” in Sylvania and others. Be on the watch for these worthwhile activities.

To offset the expense of snacks and to help supplement T-shirts and fieldtrips, there is a one-time participation fee of $5.00.

So… gather up your friends and join us for some healthy fun!!!
