**NEW INFORMATION:**

**Financial Literacy News:** in Financial Literacy, 8th grade students are learning about credit cards. We will look into the huge responsibility it takes to own one, along with the consequences of abusing them. Students will end this lesson by designing their own credit card. They will research and decide the many different features of their card. Each card will need to be enticing for a consumer to use, at the same time beneficial for the institution issuing the card. 7th grade students are learning of the services that banks offer. During this lesson students will explore the difference between a Credit Union and a bank, along with what services and account are available for them currently.

**Computer Class News:** Mrs. Kretzer’s eighth grade Computer students are learning all about the Google Sheets spreadsheet program. First we discovered what spreadsheets can be used for, like the Academic Practice Board, and what types of careers use spreadsheets, such as accountants and business owners. We learned to enter and format data into a sheet, add tabs to the sheet, and navigate within the spreadsheet. The students have been practicing using a numeric keypad using the Edutyping keyboarding program. Now we are learning how spreadsheets do math for you by using formulas and functions.

**Clay High School Band’s Tony Packo’s Fundraiser:** Tony Packo’s is providing a fundraising opportunity to support the Clay Band.
