REMINDERS:

Assignments/Learning on Hybrid Non-Attendance Days: parents/guardians, please strongly encourage and support the completion of assignments when students are not in-person during Hybrid Learning. Although students are not attending live instruction, teachers are providing students assignments via Schoology, which may include recorded session of instruction. Assignments not only are required to be completed, but also prepare students for instruction taking place during days of attendance. Failure to complete assignments results in both an absence and a lack of preparation for in-person learning. Thank you for your continued support!

Assignment Planning Boards: Assignment Planning (AP) Boards serve as a resource for parents/guardians to reference daily and weekly assignments, links to teachers' classroom web pages, and teacher introduction videos.

Even though your child is receiving in-person instruction two days a week, Nurse Jackie must be contacted ASAP (even on days your child does not have in-person instruction) if any of the above statements occur.

Emails for Students: parents/guardians, please encourage your child(ren) to check and read their school email on a regular basis (multiple times daily). Email has been a consistent form of communication between students and teachers/staff. The importance of email communication has increased even more with hybrid and remote learning.
