

Clay High School Distinguished Hall of Fame Nominee

ROBERT HECK ('85)

I nominate my husband Robert Heck because of the wonderful educational experience he had at Clay High School. After attending Bowling Green State University for his undergraduate degree he attended Medical School in Toledo as well. After his surgical residency in Ohio and his fellowship in plastic surgery in South Carolina he was the first fellow the Marina Del Ray Plastic Surgery Fellowship through USC in California. He has been in a successful plastic and reconstructive surgery practice for nearly 20 years in Columbus Ohio serving his community near and far. The nature of his business has turned primarily elective but donates his skills among multiple charities, schools and local business's to almost every person who asks. Check out our website at www.columbustplasticsurgery.com for more info.
