Library Award

Beginning with the first steps of learning to read in Kindergarten, encouraging children to want to read remains an essential link between classrooms and the library. Often we might wonder if we truly are nurturing a love of reading, or simply adding one more requirement to the everyday ritual of compulsory learning. The annual Coy Library Award recognizes a student who, during his elementary years, has exhibited a healthy appetite for reading. While there is an expectation that students choose at least one book during weekly visits to the library, it is apparent when a student checks out 278 books while at Coy, that perhaps this young man has, in fact, discovered that love for reading rather than merely adhering to what is required. Congratulations to fourth grader Owen Seger for fulfilling such an admirable accomplishment. Owen, may you continue to enjoy the pleasure of reading throughout your lifetime.

Love The Arts!

The Kindergarten classes at Coy Elementary engaged in four interactive visits to the Toledo Museum of Art this year. During their visits they explored color, shape, texture and lines in art work. They also had the opportunity to create their own works of art at the museum. The children loved the whole experience. Who knows, there may be a future Picasso at Coy waiting to be recognized.

Life imitating art!

Coy's future artists!

Make sure to check the honor roll for your child's name on pages 6 and 7.

Superintendent's Message

Planning Makes Perfect!

Hal D. Gregory
Superintendent

As we come to the end of yet another great year for Oregon City Schools, the discussions turn to next school year and how we can do things even better. Planning is a renewed theme at OCS. Planning for the future will be systematic, with a focus on our mission and on key intentional objectives.

OCS Mission
"The mission of the Oregon City Schools Board of Education is to maintain a safe and secure learning environment that provides all students with the opportunity to obtain knowledge, skills and abilities necessary to be successful in the 21st century."

The idea of focused planning is certainly not a new idea for any school district or business. Our renewed commitment to updating and monitoring our strategic plan is crucial to the success of OCS moving forward. Planning and coordinating all the moving parts within our school district is a challenge, but through strong communication, accountability, and input from teachers, administrators, support staff, and our community, we will plan and execute to meet the diverse needs of today's students.

Planning is a puzzle, but once all the pieces are put together, the picture is beautiful. OCS continues to be the district of choice for many, many families and for that, we say thank you!

Hal Gregory
Superintendent

2017 - 2018 Student Re-Registration

Student re-registration will open on July 24, and end on August 11. All students in grades 1-12 need to be re-registered for the 2017-18 school year. We will have an "Open Lab" for those who are unable to complete the process at home. The dates and times are as follows: July 31 thru August 11, from 8am til 3:00pm at the Administration Building.

As in the past, you will need to log into you Parent Portal to re-register your students. Please make sure you are able to log into your Parent Portal to avoid complications in July. If you are unable to log into your portal, or haven't created one yet, please contact Linda at 419-693-0661 ext. 3273 for assistance.

The re-registration process will be the same as in past years. if you need assistance to complete the process, the re-registration directions will be posted to the Oregon City Schools website at www.oregoncityschools.org prior to July 24.

Additional information, and reminders will be sent out via email, and posted to the OCS website as we approach the July 24 date.

STEAM Day

Jerusalem Elementary had its second annual all-school STEAM day on Friday, May 12. Students completed activities related to Science, Technology, Engineering, Art and Math. Over 60 volunteers traveled to the classrooms bringing fun, interactive hands-on activities to the students. All students visited the art station and made either a pendulum painting or made paper. Under the pavilion, all students made ice cream in a bag. In one activity, Kindergartners learned about sink, float and capacity in Hydrofoil. In first grade, students enjoyed making Flubber. Second graders got their hands dirty making magnetic slime. In third grade, students made a roller coaster out of CPVC, with one loop and one hill or two loops. Building a lunar buggy for the moon was a highlight in fourth grade. Thank you to all the volunteers who made this day possible!

Pendulum Painting: 2nd and 4th graders take turns swinging a pre-made water bottle, to create intricate designs on poster board.

Roller Coaster: 3rd graders use pipe insulation and masking tape to create a roller coaster on the wall.

Makey Makey Piano: 2nd graders and Kindergartners collaborate using the Makey Makey board and application, to turn conductive objects into a key on the Makey makey Piano.

NHS Continues Storied Tradition

Over the past year, the forty-nine National Honor Society members from the Class of 2017 have been active in upholding the traditions and the pillars of NHS, which include scholarship, leadership, service, and character.

This year the chapter developed the Eagle Leadership Fever (ELF) Project as their service project. The chapter served the school, district, and local community in some capacity over the first few days in December. They lifted student spirit with free popcorn during lunch and organized a Frozen night for the K through 4 students. In addition, members placed encouraging words in the intermediate and junior high schools.

The NHS Officer Team also challenged members to go above and beyond the minimum fifty hours of service per member. This year, our 49 members completed 3,976 hours of service. We are happy to report this averages 81 hours of service per member, far surpassing the minimum requirement.

The Class of 2017 members were recognized at the 79th Induction and Instillation Ceremony on April 5, where they were given their honors cords to be worn at graduation. In addition, the thirty-six 2017 Initiates were inducted into the chapter at the ceremony.

Pictured above: 100 Hours Club, Fifteen NHS members were recognized for completing over 100 hours of community service. Pictured left: Clay Principal Jim Jurski gives Senior Marisa Vislay her certificate for being part of the 100 Hours Club. Pictured right: NHS Officers (l to r): Secretary Ashlyn Takacs, Treasurer Maddie Miller, Volunteer Chair Kerrigan Murphy, Co-Advisor Bethany Kohler, Co-Advisor Vallie Robeson, President Sydney Hess, Service Chair Marisa Vislay, and Vice President Calee Reynolds.

Autumn Holzemer placed 3rd in Ohio SATELITTES Science Symposium for her study on nitrate levels from farm runoff.

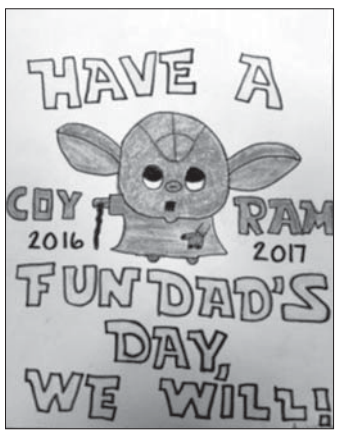
Memorial Awards Recipients

Jacob Titgemeyer, recipient of the Arturo Lopez Memorial Award, and Gianna cuttaia, recipient of the Connie Rodriguez memorial Award.

Congratulations to Jerusalem Elementary 4th graders, Gianna Cuttaia and Jacob Titgemeyer, the 2016-2017 Connie Rodriguez and Arturo Lopez Memorial Award recipients, respectively! During the May 16 meeting of the Board of Education, teachers Heidi Adam (1st grade), who, as a student at Wynn Elementary, was a recipient of the award, and Tricia Ostrander (2nd grade), who was Arturo's teacher the year of his passing, presented Gianna and Jacob their awards. The Rodriguez and Lopez families were present and were recognized as well. Each year, 3rd and 4th grade teachers at Jerusalem Elementary School compile a list of 4th grade girls who are felt to have demonstrated the basic qualities and characteristics represented by the Connie Rodriguez Award, and a list of 4th grade boys who are felt to have demonstrated the basic qualities and characteristics represented by the Arturo Lopez Award. The nominees should demonstrate:

- An outstanding quality of sharing and sportsmanship;
- A cheerful, positive attitude in all endeavors;
- Full effort and realization of self-potential in both academic and social interactions;
- A non-prejudicial attitude; and,
- The basic human qualities of respect, leadership, humility, honesty, integrity, sincerity, kindness, and love, which serve as an example to all.

Coy Celebrates 63rd Annual Dad's Day!



One long-standing tradition – 63 years long! – is Coy Elementary's annual Dad's Day celebration. What is "Dad's Day?" Originally, it was an opportunity for fathers of students to spend a day with their children at school, taking part in games, races, fellowship, and lunch. It is a tradition that has maintained its value over the years, while at the same time morphing into a day that brings students and those who care for them together for a day of fun. Today you may see dads, moms, grandparents, aunts, uncles, or extended family joining their students for the celebration.

Dad's Day always has games and challenges galore, manned by community volunteers. Students can be seen running obstacle courses, trying their hand at athletic skills, or attempting to outrun their peers in a timed contest. There is an annual adult's breakfast to start the day, and parents/grandparents/caretakers are honored for attendance at Dad's Day over the years.

More recently, Dad's Day has also featured a Classic Car show, spearheaded by Mr. Chuck Wine, Coy's own car enthusiast. Kids and adults can get a close-up look at vehicles that define "cool." In the past, motorcycles, army vehicles, and tractors have joined in the exhibition. A photo booth has also become a favorite attraction, giving participants a fun memory to take home. And, in the background, are the strains of dance music brought to Coy by Zeke a local classic car DJ who lends Coy his talents for the afternoon.

Dad's Day is an integral part of the Coy Community experience. This year Dad's Day was on May 18.

District Banquet

On May 9, Oregon Clay FFA members traveled to Four County Career Center to attend the District One FFA Banquet. Members first participated in chapter officer training to prepare to lead the chapter in the upcoming year. Students then were provided a meal and participated in the district awards ceremony in which FFA members received their awards for the past year. Students received individual and team awards for Agronomy, Nursery and Landscape, Wildlife Management, Nature Interpretation, Animal Management, Floriculture, and Aquarium Management Career Development Events, as well as district Proficiency Awards.

Banquet Attendees.

Update On The Civil War

Three students from Mr. Klosterman's Civil War class recently presented their projects to a meeting of the Oregon-Jerusalem Township Historical Society.

All three students got a chance to share their projects and engage in a real world public speaking opportunity. The following presentations were given: Madeliene Wallace - the Civil War song, " Dixie;" Tommy Dunbar - the telegraph in the Civil War; Abby Kolinski -- Burnt Almond Ice Cream from Lincoln's second inaugural ball.

Pictured in the front row: Madeliene Wallace, Tommy Dunbar, and Abby Kolinski. Back Row: Connie Isbell - president of the Oregon-Jerusalem Township Historical Society, and Mr. Chris Klosterman, history teacher.

State Convention

Oregon Clay FFA members traveled to Columbus, Ohio, from May 3-5, to participate in the Ohio State FFA Convention. The convention was held at the Ohio Expo Center, and while attending, students participated in the State AgriScience Fair. AgriScience Fair finalist included Elizabeth Vincent (Bronze), Sam Siefke and Megan Mawhorter (Silver), and Jasmine Stringham (Silver). Also, while attending convention, students toured the College of Food, Agricultural and Environmental Sciences at The Ohio State University, as well as the Byrd Polar Research Station at OSU. Attending members also visited the Columbus Zoo while in Columbus.

FFA members at State FFA Convention visiting OSU. Left to right- Megan Mawhorter, Jasmine Stringham, Kyle Myrice, Max Venia, Elizabeth Vincent, Brian Spencer, and Greg Faneuff.

Mini Gardens At The Toledo Zoo

This spring, students from the Agricultural and Environmental Technologies Career and Tech program created mini-gardens to display at the Toledo Zoo in conjunction with the Zoo's Earth Day celebration. Over the weekend of April 28, ten mini-gardens from Clay were shown in the Zoo's Museum of Science for the weekend.

The Towel Garden was created by Xavier Chapman, and Jeffrey Richardson.

This Out to Lunch garden was created by Babby Barboza, and Jenna Foco.

Nature's Nursery Animals

Starr students learned about animals native to the area through a presentation from Nature's Nursery, a local non-profit animal rehabilitation organization. Because students raised almost $400 from their annual Valentine's Post Office and generously made this donation to Nature's Nursery, the organization offered to visit the school for free! Students had an exciting up-close opportunity to meet and learn about a box turtle, opossum, screech owl, and falcon.

Students had the opportunity to see a screech owl up close.

The Quietest Room In The World

By Fred Saunders, Clay High School Science Educator

On March 23rd a group of ten AP Chemistry students from Clay High School traveled to Granville, Ohio, to visit the Owens Corning Science and Technology Center. The idea for the trip came from a parent teacher conference with Mr. Saunders and a local mom, wanting to encourage more students to enter STEM careers, especially young women. Both parties had the same purpose in mind when planning this trip: to expose those who are gifted in science and math at Clay High School to the possibilities in the science and engineering fields.

Owens Corning Science and Technology Center is a beautiful facility located in the rolling hills of southeast Ohio, spread out over more than 500 acres about 30 minutes east of Columbus. Clay students were exposed to the top-notch facilities they could be working in some day, with an engineering or science degree.

Owens Corning rolled out the red carpet for our students. During a nice lunch, not only were the students presented with gifts, but they also got a chance to meet the vice president of the Science and Technology operations, who gave the students an overview of the products that Owens Corning produces and how Science and Technology supports the corporations' efforts. He surprised the students by listing all the different technical backgrounds employed there, from chemists to aerospace engineers.

The students were then given a tour of the various science and testing laboratories on the grounds. They were able to witness a wide variety of the different roles at the facility. For example, the students saw how Owens Corning tests products that are part of their own homes. They saw how shingles are tested to make sure they have sufficient strength to resist blowing off roofs and how engineers optimize residential blown-in insulation. They were also shown a scaled down, 20 foot long, model of a manufacturing system where Owens Corning engineers are able to test different process conditions. The results of these experiments are used in a manufacturing operation at a plant that is the length of a football field!

Some parts of the tour were especially relevant to some of our Clay students. Owens Corning showed us their 3-D printing facility, a process where a computer-designed part can be converted to a physical part without any expensive tooling or machining in a matter of hours. Attending student Zach Groll recently did a project on 3-D printing in the Skills Ohio Additive Manufacturing competition as a member of Clay's Engineering program this past spring. It was satisfying to know that some of the work going on in Clay's career tech department is similar to a world class engineering facility.

The highlight of the tour, according to most of the students, was the acoustic lab, which featured two special rooms: one where no sound waves were absorbed, and the other where all sound waves were absorbed. In the first room, every single sound seemed amplified. In the second, every sound was muffled and some students said it had an eerie feeling to it. The room is the quietest room in the world; it is twenty times quieter than a "silent" bedroom at night. Owens Corning uses the acoustic lab to scientifically measure the absorbed sound energy of different materials.

Clay AP chemistry students and hosts at the Owens Corning Science and Technology Center.

The students enjoyed their trip. Some are even motivated to pursue a PhD to work in a research environment in the future. It was valuable for them to experience the relevance of the chemistry they learned this past year and what amazing opportunities are available to them. It was a generous gift from Owens Corning to host this valuable event for Clay's science students.

Clay DECA Wraps Up Year With International Competition

Four students enrolled in the Marketing Education Program ended their year in DECA by competing at DECA's International Career Development Conference (ICDC) held in Anaheim, California, April 25 – 20. To qualify for ICDC, students needed to place within the top four at the Ohio DECA Career Development Conference held in March. Students competing at the International level included: Sara Berg, Alyson Naugle, Paige Titsworth and Kendall Wells.

This year's DECA ICDC featured over 19,000 members and advisors in attendance. DECA competitions are designed to simulate real-life business scenarios and to test students' academic understanding and skill development.

"ICDC was a life changing experience," states Clay DECA Vice President Kendall Wells. "I was able to meet new people, connect with my chapter in attendance, and present for accomplished people in the marketing field. All of the hard work paid off in unexplainable ways."

ICDC was the icing on the cake to an amazing year. The forty-two junior and senior Clay DECA members earned twenty-seven district awards. Eight state awards were earned, including a second and third place trophy.

DECA prepares emerging leaders and entrepreneurs in marketing, finance, hospitality and management in high schools and colleges around the globe. It is a component of the Marketing Education Program at Clay High School for junior and senior students interested in careers in the business industry.

Pictured left: Four Clay DECA members pose for a picture in front of the conference.

Clay DECA helped raise funds for the Muscular Dystrophy Association by participatin in the 5K held during ICDC.

Four junior members from Clay DECA qualified for ICDC. Kendall Wells, Paige Titsworth, Sara Berg and Alyson Naugle (l to r) pose for a picture with their advisor, Vallie Robeson (middle).

Students' Artwork Shines

Students at Starr Elementary had the opportunity to showcase their artwork at the school's first Art Show. Students, families and community members were invited to the show in which over 600 pieces of art were displayed. The goal of the show was to recognize and celebrate the hard work and creative talents of students and to advocate for the importance of art education. Thank you to the Oregon Schools Foundation for funding the art supplies for students, and to Oregon City Schools for providing the supplemental funding to make this event possible!

History Comes Alive

Abraham Lincoln, Rosa Parks, Neil Armstrong, and Jane Goodall were among the many famous people portrayed by Starr Elementary third-graders during the annual wax museum presentations. The biography and wax museum project, where students gave speeches and dressed as the famous person of their choice, encompassed many learning objectives through the Common Core curriculum. During the fourth quarter, each third-grade student was responsible for researching a person of his or her choice, who has made contributions to society. After reading a biography about the person of their choice, the students completed an outline, wrote a one page report, and decorated a poster displaying events from his or her life, including a timeline of their life.

As an extension and integration of the Common Core Standards for Language Arts and Social Studies, the students then presented their person of choice through a wax museum. The students presented a brief one to two minute speech in the first person point of view telling about the person's life and contributions made to society. All of the students were in full costume and recited facts, in character, to teachers, visitors, and other students. Overall, the responses and feedback from teachers and parents were positive, and students were thrilled to see history come alive at Starr School!

Author Fair Is A Success

The Fassett Junior High School gifted and talented students had a wonderfully successful 2017 Author Fair. After studying their selected authors and reading the authors' novels, they prepared analytical biographies and presentations for their classmates. In March, the students gathered in the Fassett cafeteria to present to families, students, and community members. The students were well prepared and presented thorough research to their audience. The eighth graders also used the WeVideo application on their ChromeBooks to create movies advertising their authors.

Eighth grader Ethan Spears presented his author, Sherman Alexie, to Superintendent hal Gregory.

Seventh grader Kara Quigg presented her author, Gail Carriger, to Principal Becci Bihn.

Eighth grader Kelsey Rigsby presented her author, John Green, to board members Carol Molnar and Heather Miller.

Seventh grader Molly Brammer presented her author, Cassandra Clare, to Lisa Anderson, Fassett teacher.

Eighth grader Zach Woollard presented his author, Thomas Keneally, to Nate Quigg, Clay assistant principal.

Eighth grader Mallory Nelson presented her author, Gayle Forman, to Angela McCort.

Clay Bids Farewell to Staff Members

On Friday, May 26, Clay High School bid farewell to six longtime staff members. Pictured from left to right are Donna Cornell, Vicki Feher, Mary Tucker, Karen Aossey, Donna Chapinski and Pam Shields. Thank you for your years of dedicated service to our students. Clay wishes these ladies a healthy and happy retirement!

Congratulations Happy Retirement!

Scavenger Hunt

On May 12th, Coy 4th graders took their annual field trip to The Henry Ford Museum. The students look forward to the trip all year long and are excited to see many primary sources they have learned about during the school year. The students are required to complete a scavenger hunt, which includes locating items such as Abraham Lincoln's chair, the Declaration of Independence, the Allegheny train, Thomas Edison's last breath, and Rosa Parks' bus. Each year, the students are excited to actually sit in the same seat in which Rosa Parks was sitting when she was arrested for not giving up her seat. The Henry Ford Museum makes learning come alive.

Sixth Graders Love Pi

Monday, March 20th was the fourth annual Pi day reciting contest at Eisenhower Intermediate School. Contestants had to memorize the first 50 digits of Pi to qualify for the finals. From there, the sky was the limit. We had 12 contestants participate in the finals this year, and we want to thank all of those who participated.

Congratulations to our third place contestant, Madalyn Karcsak, memorizing 98 digits. Second place winner was Olivia Kulwicki, memorizing 99 digits. And the winner of the 2017 Pi day reciting contest was Sophia Marsico, memorizing a grand total of 141 digits of Pi. Congratulations again to all of those who participated.

The PI competition winners.

Don't forget to check out the Hall of Fame Banquet info on page 12.

Coydecott Award

Logan Koehler, honor book *Down to the Sea With Mr. McGee*, Aidan Halka - gold medal book *David Gets in Trouble*, Jason Buenrostro - honor book *The Haunted Hamburger.*

Students at Coy Elementary recently learned about the well-known Caldecott book award, which is given annually for the best illustrations in a children's book. After discussing the important role illustrations play in a book, they decided to create their own award, and dubbed it the "Coydecott." This innovative project was collaboration between the library and classroom, and met state Common Core Standards.

The students studied how illustrations aid in telling a story and learned about the criteria for consideration for the actual Caldecott award. They had the chance to read and toenjoy some of the past medal winning and honor books. Students then set up the criteria for judging picture books for Coy's Coydecott Award. Illustrations needed to be out of the ordinary, using various artistic media to enhance the story.

The book could be either a fictional picture book or narrative nonfiction, and the illustrations had to appeal to students. Each student chose a picture book to his or her liking, and then evaluated the book according to the set Coydecott criteria. Students had to identify what about the illustrations appealed to them, and had to explain and descriptively support their choices and evaluation. Each 3rd grade class then voted on the books evaluated by students within their class. The top three books from each class were then sent to the library and a final vote among all third grade classes revealed the first Coydecott Medal book and three honor books. The books were revealed at an award ceremony in the library among drum rolls and much applause!

Clay High Alumni and Friend's Association
presents the 20th Annual

Groove in the Grove

Saturday
September 16
7 PM—12 AM

- Dancing along with cards and reminiscing in the Cheesehouse
- 5 O'Clock Rush Band from 7-9
- DJ 9-12
- STILL the low $15 entry fee gets you unlimited beer, pop, snacks and lots of dancing
- Cash bar for wine and cocktails will also be available and a TV for the football game
- This is a casual outdoor event with shelter provided in the event of inclement weather
- 21 and over event

Tickets available at the gate
Oak Shade Grove
3624 Seaman Road, Oregon, Ohio

Clay High School Honors Night 2017

Leila McKinney spoke these words, "Remember to think at least once a day about who you are, where you have been, and where you are going. Take care of your bodies and minds; they must last you a lifetime. Listen to your parents and smile at your neighbors. These actions alone will do wonderful things for your life." This statement can be simplified into one word: Wellness.

On Monday, May 15th, this statement resonated through the audience, as the Clay High School Scholarship Committee echoed the core values of Family, Tradition, and Community. The Clay High School Honors Night cloaks these core values as the senior class is acknowledged for their outstanding achievements throughout their high school careers.

An underlying theme of Wellness was noticeable with the commencement of the annual social hour. Community donors, scholarship recipients, and their families, as well as school administrators gathered prior to the ceremony, which created an unforgettable experience filled with engaging communication. The culmination of student dedication and hard work, coupled with donor generosity and support, exemplifies how Wellness for the community spans many generations.

In recognition, the collaboration invested within the preparation, execution, and success of this event speaks directly to our core values. Community businesses donated the linens, which transformed our high school cafeteria into an inviting reception hall for social hour. The Clay High School Environmental and Technologies Program created brilliant floral centerpieces, which were later presented to the community donors. The Culinary Arts Program composed a menu of Hor O'Dourves with meticulousness and palatable taste. Without question, these programs exceeded the expectations of all, and our gratitude is extended to them.

Upon conclusion of the social hour, the Clay High School auditorium was occupied by all in attendance, and our senior class was recognized with community scholarships and academic honors. These scholarships are gathered from Clay High School, through various universities and colleges, and by way of outside partnerships. Over 65 seniors were honored with a combined 123 locally funded scholarships equaling over $95,000.00.

Our 2017 Clay High School Honors Night would not have been a success without the support of family, community, and Clay High School tradition, which strives for overall wellness through an unparalleled allegiance. The stories, dreams, and memories shared during the course of the evening created an environment which will lead our future graduates into the next phase of their lives, and into a world filled with love, laughter, and a commitment to leading a successful and rewarding life. These graduates will embark on this amazing journey, which has been forever sparked by the core values of the Oregon City Schools and the Oregon Community. Overall, graduates, remember the wellness of this night, as you move forward to greatness.

Mr. James Jurski (principal) and Logan Perlaky receiving the Archie Griffin Award.

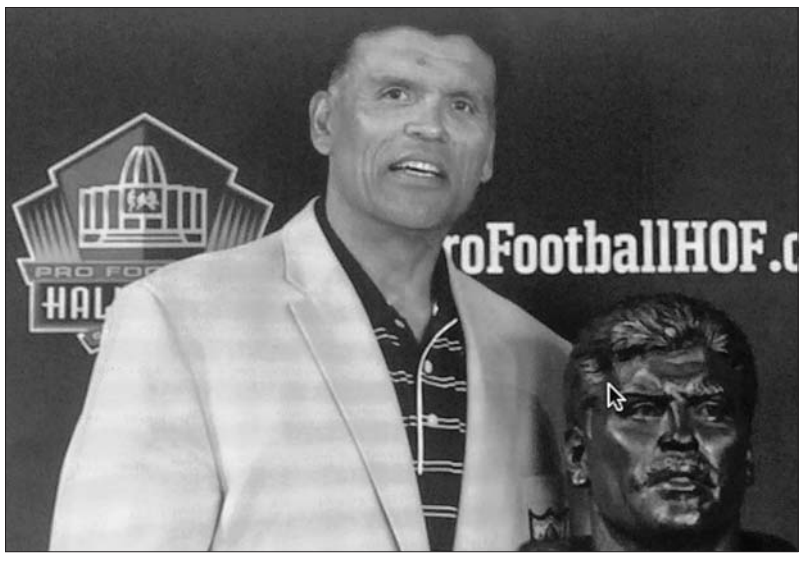
Mr. Steve Bialorucki (Career Tech Director) and Kyle Myrice receiving the Career & Tech Director's Award.

Pat Heintschel (secretary), Beth Kohler (counselor), Kristen Rice (counselor), and Mike Celusta (counselor).

Clay Football Summer Youth Camp To Feature An NFL Legend

Clay High School Football Program's summer youth camp will feature a special guest appearance by former Cincinnati Bengal and NFL Hall of Famer, Anthony Munoz, who will speak to the youth campers on Wednesday, July 26. Anthony Munoz received a football scholarship to the University of Southern California, where he led the Trojans to the 1978 National Championship. While at USC, he earned All-American honors in football and was a pitcher on the baseball team. The Cincinnati Bengals selected him with the third overall pick in the 1980 NFL Draft. Munoz led the Bengals to two Super Bowls, three AFC Central Division titles, and two AFC Championships. Munoz was named the NFL Offensive Lineman of the Year in 1981, 1987, and 1988, and the NFL Players Association Lineman of the Year in 1981, 1985, 1988, and 1989. From 1980 to 1992, he started in 185 of 186 games, and was selected to play in 11 consecutive Pro Bowl games (1981-1991). Munoz is also a member of the NFL 75th Anniversary All-Time Team. While playing for the Bengals, Munoz was recognized for his tireless community involvement. He was the recipient of the Athletes in Action Bart Starr Award for Leadership in 1990, and was named the Cincinnati Bengals Man of the Year Award for five consecutive years. In 1991, he was honored as the NFL Man of the Year. Following his retirement, Munoz was elected into the Pro Football Hall of Fame in his first year on the ballot. He was enshrined in the Hall of Fame in August of 1998.

The camp will run from Tuesday, July 25 through Thursday, July 27, and will take place at Clay Memorial Stadium. It will run from 6-8 pm, and is open to anyone who will be entering grades 3 through 8 in the upcoming school year. The cost is $50. The Clay High School football staff and players will teach individual skills and fundamentals required to succeed in football at the camp. Campers will also compete in daily competitions, will receive a camp T-shirt, and will listen to special guest speakers. For more information, please contact John Galyas (jgalyas@oregoncs.org) or Joe Kiss Jr. (jkiss@oregoncs.org).



NFL Hall of Famer Anthony Munoz will speak at the Clay High School Youth Football Camp on Wednesday, July 26th.

Soil And Water Conservation Tree Packing

Students packaged hundreds of trees to distribute.

Oregon Clay FFA and the Lucas County Soil and Water Conservation District teamed up this year to pack trees for their annual tree sale for Lucas County residents. Students learned tree species as well as management tips. Students packaged hundreds of trees to distribute to land owners in Lucas County and surrounding areas.

History Comes Alive

Abraham Lincoln, Rosa Parks, Neil Armstrong, and Jane Goodall were among the many famous people portrayed by Starr Elementary third-graders during the annual wax museum presentations. The biography and wax museum project, where students gave speeches and dressed as the famous person of their choice, encompassed many learning objectives through the Common Core curriculum. During the fourth quarter, each third-grade student was responsible for researching a person of his or her choice, who has made contributions to society. After reading a biography about the person of their choice, the students completed an outline, wrote a one page report, and decorated a poster displaying events from his or her life, including a timeline of their life.

As an extension and integration of the Common Core Standards for Language Arts and Social Studies, the students then presented their person of choice through a wax museum. The students presented a brief one to two minute speech in the first person point of view telling about the person's life and contributions made to society. All of the students were in full costume and recited facts, in character, to teachers, visitors, and other students. Overall, the responses and feedback from teachers and parents were positive, and students were thrilled to see history come alive at Starr School!

STEAM Museum

What is STEAM Education? STEAM (science, technology, engineering, art, and math) education is a nationwide initiative that creates critical thinkers, increases science literacy, and enables the next generation of innovators. It is a synergistic approach to teaching the STEAM disciplines, instead of isolating them as separate schools of thought. It is the next logical step in what the STEM initiative began, by incorporating art to bring the "right brain" into traditional scientific thinking. Students at Coy were excited to participate in a number of exciting activities.

Build-an-Arch: Build a parabolic arch out of large, kid-friendly foam blocks, and learn how this incredibly strong structure functions in the process. See how the ancient Romans used this structure in their buildings, how Americans used it in the St. Louis Gateway Arch, discover how force is dispersed, how a keystone works, and then knock it all down!

3D Printer: A demonstration of a state-of-the-art, 3D printer in action. Students watch as the printer creates a 3D model while it's visible on a computer monitor right before their eyes. Example models of other practical (and just plain fun) objects that can be made with a 3D printer are on display.

Friction Raceway: Mix-and-match four different "rollers," each with its own texture, with four different "lanes," each also lined with its own texture. See which textures create the most friction, and which textures create the least.

Humanoid Robot: Students will get the opportunity to see a truly cutting-edge, humanoid robot in action! The NAO robot will kick-off a visit to the STEAM Museum, introducing himself and his wide-range of human-like abilities, leaving jaws hanging wide open and imaginations forever sparked at the incredible state of the field of robotics. Then, time permitting, NAO will gather students for a group workout/dance to end their session.

Bike Generator: Students' energy is turned into a dazzling light show that stands at the center of the STEAM Museum with this bike generator. As students pedal the bike, they will convert their kinetic energy into electricity, first illuminating low-power LEDs until finally creating enough power to light halogen lamps at the top of the tower! Everyone will want a chance at this!

The Robots: There are two different types of robots students can program at STEAM Museum. The first is a robot not unlike the NASA Discovery robot currently exploring the surface of Mars where students will learn step-by-step programming. The second is an advanced, line-tracking robot that responds to color. Grab markers, and create paths, mazes, and even game boards for this awesome robot.

Thank you to all who have supported our PGA fundraising efforts. You allowed us to bring the STEAM Museum to our school. A special thank you also goes out to the parent volunteers, Sara Hanthorn, Meredith Christiansen, Tracy Lewis and Mikayla Taska, who helped facilitate the activities. Make sure to ask your child about the STEAM Museum. It was a terrific learning opportunity for all!

Second grade at the STEAM presentation.

Steam Stations.

Blazing A Trail To CHSMUN Excellence

To William Nagy, the Clay High School Model United Nations (CHSMUN) is not just an extra-curricular activity, but also a passion, which is showcased in his record-breaking eleven first-place and two second-place wins between his sophomore and senior years. Three of the first place wins were at the Canadian-American Security Council Summit, where so few awards are given that delegates are lucky to earn one in four years, let alone three in three years. Will has consistently shown he is one of the very best MUN delegates in the midwest.

Will's impressive wins are just the beginning of his commitment to CHSMUN. Some might be inclined to keep their secret to winning of themselves, but not Will! Will has used his four years on the team to not only hone is own skills but also to pass those skills on to younger delegates. As one of just three seniors to earn the Global Scholars Diploma, Will has worked with the Jr. Model UN, as part of his senior capstone project. In his planning and conducting of after school meetings, hosting of two junior model UN competitions, and development of competition preparation materials, Will has raised the bar for the team and strengthened it beyond imagination. It is no surprise Will is a recipient of the "Jason Hooks" Distinguished Diplomat Award, the highest award CHSMUN bestows upon a senior delegate.

Will Nagy

Will Nagy ran a Jr. Model U.N. Competition at Clay High School.

Junior Achievement

Starr third graders participated in the Junior Achievement "Our City" program this year. Junior Achievement's purpose is to inspire and prepare young people to succeed in a global economy. JA "Our City" introduces students to the characteristics of cities and how cities are shaped by zoning. Students also learn about the importance of money to a city, how financial institutions help businesses and city residents, and how the media is an integral part of a city's life. Students learn the role of an entrepreneur by exploring what it takes to open a restaurant. Starr would like to thank our JA community volunteers, Craig and Kathy Bowie.

Starr third graders are instructed by JA volunteers.

Starr third graders display their certificates of completion for JA.

Wildlife And Nature

On March 14, Oregon Clay FFA members participated in the district Wildlife Management and Nature Interpretation Career Development Events at the Fulton County Fairgrounds. Following the district contest, students traveled to the Columbus Expo Center to participate in the State Career Development Events on March 25.

Wildlife Management contestants were asked to identify Ohio birds, mammals, fish and plants, as well as take a written test, read topographic maps, determine how to deal with nuisance animals, and explain how to correctly age a wildlife animal. Students in the district contest were Branden Sloyer (3rd Place Individual) and Greg Fanueff (5th Place Individual), and state contestants were Greg Fanueff (12th Place), Sam Vincent (31st Place) and Mackenzie Upham.

Nature Interpretation contestants were asked to identify non-game birds, reptiles and amphibians, wildflowers, mammals, and equipment, as well as to identify animal calls, take a written test, and read and interpret nature signs. Students at the district contest earned 1st place team. Members of the team were Kyle Myrice (1st Place), Max Venia (2nd Place), Lizzie Spitler (3rd Place), and Alannah Chanthakham (12th Place). At the state level, students earned 2nd place team; team members were Kyle Myrice (1st Place), Lizzie Spitler (10th Place), Max Venia (23rd Place) and Alannah Chanthakham.

State FFA Nature Interpretation team: Alannah Chanthakham, Max Venia, Kyle Myrice, and Lizzie Spitler.

Super Sleuths

Coy's 4th grade students have the opportunity each year to sharpen research skills during visits to the school library, with the goal of earning the title of "Library Super Sleuth." Each week the reference section of the library features a research question and a special word to define and use. Students carry out their investigations using any resource available, either in or outside of the library. However, our young detectives also must follow correct procedures when solving the "mysteries." First, they must identify their source of information, but even more importantly, their answers must be complete and proper sentences. They must also use the word of the week appropriately in a sentence, according to the part of speech for the chosen definition. Each month, correct submissions are included in a drawing. The more research a student conducts during the month, the more opportunities he or she has to earn the worthy distinction of "Coy Library Super Sleuth." The designated Super Sleuth receives the choice of a book to add to his personal library. Participating in this task encourages students to develop and refine research skills necessary for success throughout their educations. Having such skills also benefits them throughout life. The title of Library Super Sleuth for the 2016-2017 school year goes to the following students: Jessica Joyce, Julia Joyce, Aubrey Hess, Braydi Swiderski, Madison Lindsey, Natalie Karrick, and Lilly Collins. Congratulations to this year's Super Sleuths as well as to those who challenged themselves by participating.

Front row: Aubrey Hess, natalie Karrick, and Madison Lindsey. Back row: Jessica Joyce, Braydi Swiderski, Julia Joyce, and Lilly Collins.

Animal Management, Floriculture And Aquarium Management Career Development Events

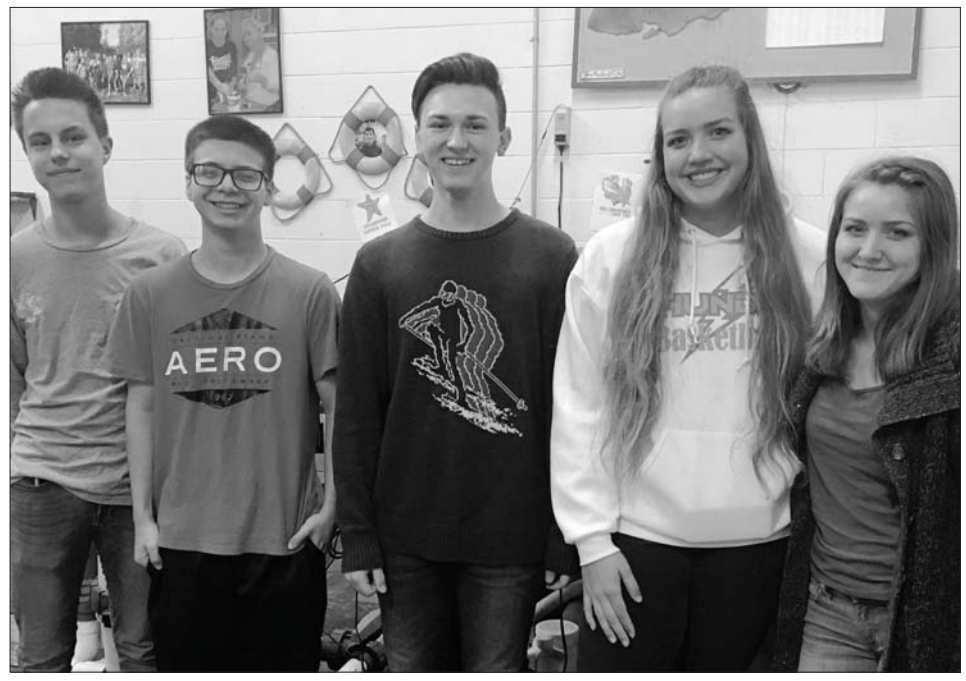
This spring, Oregon Clay FFA members participated in the district and state Animal Management, Aquarium Management, and Floriculture Career Development Events. The district event took place at Four County Career Center on March 1, and the state contest took place on April 12 at the Ohio Expo Center.

Members of the Animal Management Career Development Event were required to identify animals commonly owned as companion animals, such as dog breeds, cat breeds, exotic birds, and pocket pets. Students also took a written test and participated in a judged practicum focusing around handling and management of a particular animal. At the district contest, members earned a 4th place team ranking; members included Max Venia, Katlyn Frolich, Liz Zak, Kenzie Upham, Sam Siefke, Emma Hansen, Paige McNutt, Haley Cutshall, and Ali Brown. At the state level, members earned a 9th place ranking; members included Liz Zak, Sam Siefke, Kenzie Upham and Max Venia.

Members of the Floriculture team were asked to identify cut flowers, houseplants, cut foliage, potted plants, arrangement types, greenhouse and floral equipment, to take a written test, as well as to create bud vases. At the district level, the students earned a 4th place ranking. Members included Lilli Czop, Sydney Hales, Christa George, Alannah Chanthakham, Audrey Dalton, Jasmine Stringham, and Ashlyn Weirich.

Lastly, members of the Aquarium Management team were required to identify freshwater and saltwater fish, aquarium equipment, aquarium plants, to take a written test, as well as to solve aquarium related practicums in front of a judge. At the district level, members earned a 1st place rating with members Kyle Myrice (1st place), Elizabeth Vincent (3rd Place), Kelsey Meldrum (4th Place), Grace Smith (7th place), Jake Lafferty (8th Place), and Brian Spencer (11th place).

Animal management CDE Team: Kenzie upham, Max Venia, Sam Siefke and Liz Zak.



Aquarium management CDE Team: Jake Lafferty, Brian Spencer, Kyle Myrice, Elizabeth Vincent, and Kelsey Meldrum.

DISTINGUISHED ALUMNI & ATHLETIC HALL OF FAME BANQUET

Saturday, September 30, 2017 • 6pm to 11pm
St. Michaels Centre, 4001 Navarre Avenue • Oregon, OH 43616

$20 per person
$150 per table (seats 8)
Includes dinner and 2 beverages • Cash bar available

6pm - Social Hour • 6:30pm - Dinner • 8pm - Guest Speaker • 8:30pm - Induction

---

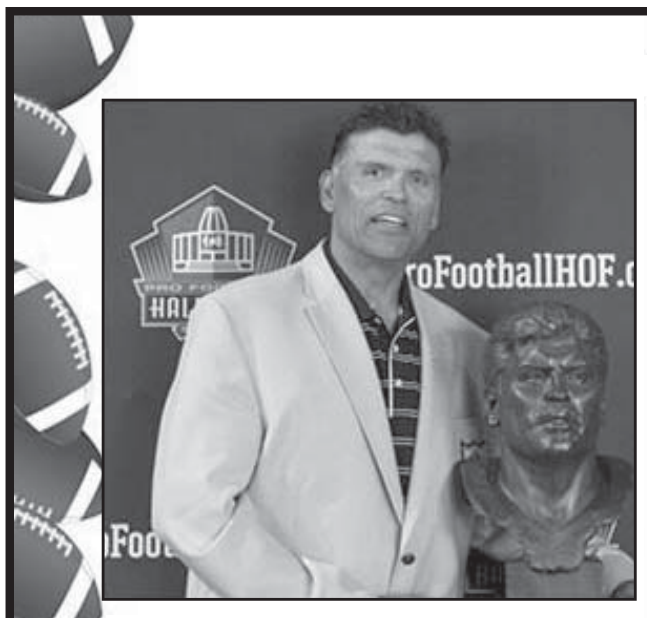
Reservation:

Name(s) _____ _____ # of guests attending

To make a reservation by mail, please send this slip and payment made payable to Clay High School Athletic Boosters by *September 20, 2017* to:

Tammy Hughes
Clay High School
5665 Seaman Road
Oregon, OH 43616

To make a reservation by phone and pay by credit card please contact Julia Henneman-Dallape at 419-693-0665, ext. 2006.



THE FOOTBALL STAFF AT CLAY HIGH SCHOOL IS VERY PROUD TO ANNOUNCE THAT NFL HALL OF FAMER ANTHONY MUNOZ IS COMING TO VISIT THE CAMPERS AT THE ANUAL SUMMER FOOTBALL CAMP PUT ON BY THE CLAY HIGH SCHOOL FOOTBALL PROGRAM. THE CAMP IS JULY 25,26 AND 27TH FROM 6-8PM IN CLAY MEMORIAL STADIUM.

MR. MUNOZ WILL BE IN ATTENDANCE ON WENDSDAY, JULY 26TH. ANTHONY MUÑOZ IS ONE OF CINCINNATI'S TRUE SPORTS ICONS.CONSIDERED BY MANY AS THE GREATEST OFFENSIVE LINEMAN IN NFL HISTORY, MUÑOZ HAS A RECORD OF EXCELLENCE THAT IS UNRIVALED IN PROFESSIONAL FOOTBALL. AN ELEVEN-TIME NFL PRO BOWL SELECTION, MUÑOZ IS THE ONLY PRO FOOTBALL HALL OF FAME INDUCTEE IN CINCINNATI BENGALS HISTORY. ANTHONY WAS SELECTED BY THE BENGALS AS THE THIRD OVERALL PICK IN THE 1980 NFL DRAFT, AND INSTANTLY BECAME ONE OF THE LEAGUE'S PREMIER LINEMAN. HE LED THE TEAM TO TWO SUPER BOWLS, THREE AFC CENTRAL DIVISION TITLES AND TWO AFC CHAMPIONSHIPS (1981 AND 1988).MUÑOZ WAS NAMED THE NFL OFFENSIVE LINEMAN OF THE YEAR IN 1981, 1987, AND 1988 AND THE NFL PLAYERS ASSOCIATION LINEMAN OF THE YEAR IN 1981, 1985, 1988, AND 1989. FROM 1980 TO 1992, HE STARTED IN 185 OF 186 GAMES, WAS SELECTED TO PLAY IN ELEVEN CONSECUTIVE PRO BOWL GAMES (1981-1991). ANTHONY IS ALSO A MEMBER OF THE NFL 75TH ANNIVERSARY ALL-TIME TEAM.

A SPECIAL THANKS GOES OUT TO CHS ALUMNI BILL HUGHES ('75) AND TAMMY HUGHES ('76) FOR THEIR INVOLVEMENT IN MAKING THIS A REALITY.

FOR MORE INFORMATION ABOUT THIS EVENT PLEASE FEEL FREE TO CONTACT CLAY HIGH SCHOOLS VARSITY FOOTBALL COACH, JOHN GALYAS AT (JGALYAS@OREGONCS.ORG)

The Underground Railroad

On May 4th, Coy fourth graders went on a field trip to the Sylvania Historical Village, compliments of Coy's PGA. Students learned about the Underground Railroad and the importance of Northwest Ohio, as conductors helped runaway slaves north to Canada and freedom. They learned about abolitionists, the daily lives of slaves, and the secret hiding places along the Underground Railroad. Students especially enjoyed acting out a play telling the story of fugitive slaves traveling north to freedom.

$1000 Scholarship

Clay Senior Kerrigan Murphy was awarded a $1000 Scholarship from the Point Place Business Association. CONGRATULATIONS Kerrigan!! She is the daughter of Lori Murphy.

Pictured are Kerrigan's grandfather and former Clay football coach Bob Murphy, and her recommending teacher,

Wall Street, Here I Come!

Brandon Hardy ran away with the Clay High stock contest with a 139.6% gain. Brandon defeated 120 peers as he turned $25,000 into $59,878. Brandon said, "I used analytical graphs and chose stocks that I felt had reached their max and then shorted them." Very few students are able to master "shorting" but Brandon did. In other words, Brandon bought high and sold low. Damian Donbrosky finished second with a 21% gain. Eighty-one percent of the students finished with a gain.

Brandon Hardy is "Top Dog".

OREGON ORACLE

This newspaper is issued by the Board of Education and staff of the Oregon City School District. Questions raised by this publication or other activities of this school district can be answered by contacting one of the following individuals or places:

The Oregon City Schools Board of Education has regularly scheduled meetings on the 2nd Tuesday of each month at 6:00 p.m. in the CHS Learning Commons. The public is always welcome to attend, however, the date and location may change so please call 693-0661 to inquire before attending.

The Oregon City School District complies with federal laws which prohibit discrimination in programs and activities receiving federal assistance.

Title 1 Regulation-Parents may request information regarding the professional qualifications of their child's teacher.

Contact the Oregon City School administration building for information (419-693-0661) or visit the Ohio Department of Education's website for teacher certification. http://www.ode.state.oh.us/

Title VI of the Civil Rights Act of 1964 prohibits discrimination on the basis of race, color, or national origin.

Section 504 of the Rehabilitation Act of 1973 prohibits discrimination on the basis of handicap.

Title IX of the Education Amendments of 1972 prohibits discrimination on the basis of sex.

The Age Discrimination Act of 1975 prohibits discrimination of the basis of age.

The Oregon City School District also complies with the Family Education Rights and Privacy Act of 1974 which grants to parents/guardians the rights to examine their children's offical school records.

Inquiries regarding unlawful discrimination may be directed to Hal Gregory, Superintendent, Oregon City Schools, 5721 Seaman Road, Oregon, OH 43616 or by calling 419-693-0661
